

ADJUSTABLE HOLDERS 9280

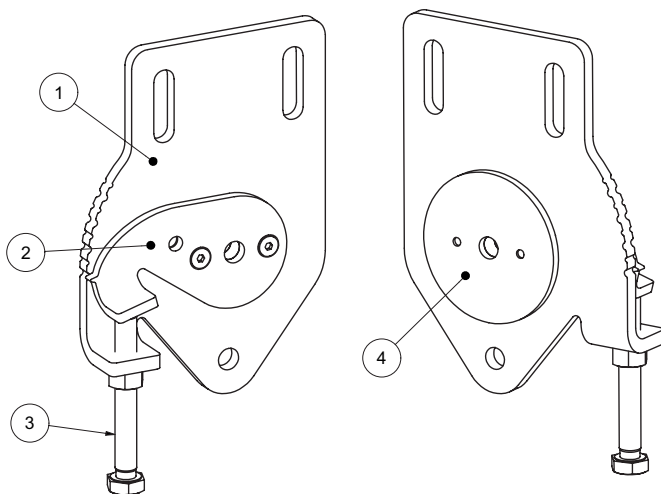

ADJUSTABLE HOLDERS FOR ROSTA SE 18/27 – Easy to fit brackets and clamping element.

The holders 9280 are a complement to belt cleaners tensioned with Rosta SE18 or SE27. The installation tensioning can be steplessly adjusted when fitted and when tensioning for maintenance.

The holders reduces the risk of vibrations and provides multiple mounting options in the conveyor frame. With the holder's visual tension indicator it is easy to get the correct pressure of the belt cleaner, and it is assuring that they are tightened equally on both sides.

The bracket must not be mounted on conveyors with reversible operation. All steel parts are electro-galvanized. The holder is sold in pairs.

1. Mounting bracket L/R 9280-3/ 9280-2
2. Lever arm L/R 9280-5/ 9280-4
3. Bolt M10x45 comes with Rosta SE18
4. Washer, 2 pcs 9280-7
