

PU STRIKING ROLLER 3500

Fits on Vendig's return rollers $\phi 63$.

PU STRIKING ROLLER IN DURABLE POLYURETHANE – For cleaning chevron belts.

The PU striking roller is an option when a belt scraper can not be used, for example when the conveyor has a chevron belt.

The polyurethane striker sleeves are fitted onto a return roller that strikes the belt 5-7 times per second at normal belt speed, which means that any particles that are attached fall off.

ART.NO.	B-W	RL	EL	AL	AMOUNT SLEEVES	L
3504	400	500	508	533	3	100
3505	500	600	608	633	3	100
3506	650	750	758	783	3	125
3508	800	950	958	983	4	125
3510	1000	1150	1158	1183	4	150
3512	1200	1400	1408	1433	5	150
